Recalling Aldous Huxley's Graceful, LSD-Laced Death

Adam · Wednesday, November 21st, 2012

Forty-nine years ago, on November 22, 1963, Aldous Huxley died a peaceful death with the aid of multiple injections of LSD. In this frank video, his widow Laura recalls his final hours and injecting him with the hallucinatory drug.

Among his many accomplishments, Aldous Huxley wrote *Brave New World*, served as the editor of *Oxford Poetry* magazine, and formulated the philosophy that helped give birth to the human potential movement.
