## Angry Birds Hijack Space Station!

Adam · Thursday, October 11th, 2012

The folks at Rovio Entertainment take their science seriously, and if you've ever played their addictive game Angry Birds, you know it's all about gravity: how will the birds arc toward earth after you sling-shot them toward the pig?

Angry Birds Space, released in February, 2012, takes space gravity seriously too, and uses new mathematics to sail the birds differently than they do on Earth... as this little demo on the Space Station shows.
