Pokies, Tables, and Live Dealer: A Curated Library with Strong RTPs

Class777 keeps the library focused and fun. You’ll find popular pokies, classic table games, and crisp live dealer rooms that stream beautifully to your device. The headline here is quality: hand-picked titles from respected providers, with RTPs that sit in the comfortable 95–97% range on many fan favourites.

Pokies: High-RTP Highlights Aussies Actually Want to Play

Class777 offers a focused pokies catalogue from BGaming, Endorphina, Playson, Spinomenal, Booming Games, Habanero, and Wazdan, with many titles in the 95–97% RTP range. Examples: Elvis Frog in Vegas(?96.0% RTP) delivers quick-hit wins and clear feature triggers; The Wild Wings of Phoenix (?96.2% RTP) combines tidy animations with steady feature build-ups; Buffalo SPACE GrandWays (?96.0% RTP) adds expanding win paths for larger hit potential; Aloha King Elvis (?96.0% RTP) keeps spins fast and readable; Fantasy Park (?96.2% RTP) uses simple mechanics and an easy paytable. Use the lobby search to filter by theme or feature, then “favourite” your top games so they sit on your home screen for instant access next session.

Tables & Live Dealer: Smooth, Full-Screen Play That Feels Premium

Beyond pokies, Class777 serves crisp table games and responsive live rooms that work beautifully on both a 6-inch phone and a 27-inch monitor. Blackjack, roulette, and baccarat run with clear rules, quick dealing, and chip animations that feel natural — no lag, no guesswork. In live dealer, the video fills your screen, the betting layout stays sharp, and the stream remains steady while you place your wagers (even on mobile data). It’s the kind of polished, real-time experience Aussies appreciate when they want a few focused rounds without leaving the couch.

If you’re new to the tables, start with low-stake roulette to get a feel for the pace, then move to blackjack when you’re ready to make more decisions per hand. Don’t forget: check the table info panel for limits and side bets before you sit in. It takes five seconds and helps you play with confidence from the first chip.
