Gaby Dunn on Christine Darden

Julie Hébert · Wednesday, March 7th, 2018

Dr. Christine Darden started as a “human computer” at NASA, fighting sexism and racism to advance as a leader, building a 40-year career there. Hear influencer and *New York Times* best-seller Gaby Dunn tell Darden’s story, reminding us what can happen when you advocate for yourself.

And we are just over 50% of our fundraising goal! Don’t forget to donate on our fundraising site in honor of Women’s History Month.

[alert type=alert-white]Please consider making a tax-deductible donation now so we can keep publishing strong creative voices.[/alert]
