Your love for rock music will get even stronger as you attend the upcoming Genesis tour! The group has come together after nearly a decade and a half, and they're back for good. So get ready to grab your [Genesis presale](#) tickets as soon as you can!

English group Genesis formed in 1967 with five pupils from Charterhouse School, Godalming, Surrey. They were Tony Banks, Mike Rutherford, Chris Stewart, and Peter Gabriel, Anthony Philips. Although the band was on and off the radar throughout their career, its numerous hit songs never got off the people's hearts.

The discography of Genesis includes fifteen studio albums, forty-three singles, six live albums, thirty-two music videos, and many more. Their works have earned them about 21.5 million albums certified by the RIAA in the US, 3.4 million, 5.6 million, and 7.2 million in France, Germany, and the UK, respectively.

They won four Multi-Platinum and eleven Gold albums in the United Kingdom, while in America, they bagged four Multi-Platinum, two Platinum, and seven Gold albums. The group also got an induction to the Rock & Roll Hall of Fame in March 2010 by Trey Anastasio, a Phish guitarist.

In 1977, Genesis won a Silver Clef Award because of their phenomenal contributions to the music

industry in Britain. The band also won a Grammy Award for Best Concept Music Video in 1988 and got a Lifetime Achievement Award in 2008.

Another great achievement of Genesis is that the band influenced many other major artists in the industry. While Steve Hackett influenced guitarists like Eddie Van Halen (Van Halen), Brian May (Queen), and Alex Lifeson (Rush), the whole band influenced artists like Will Sergeant and Simple Minds.

Genesis was most popular as songwriters. While the band's early music style had elements of pop, psychedelic, and folk genres, they developed and changed, especially when they reduced to the trio. Rutherford, Collins, and Banks decided on changing their lyrical styles, where they focused more on everyday and personal matters. However, the band still used humour in their songs like "Illegal Alien," and also incorporated serious matters like politics in their song "Land of Confusion."

Genesis had a unique evolution as a band. Their music progressed with every passing era and had many alterations in the band's line-up too. However, the band shone and saw its highest commercial success when it had Tony Banks, Phil Collins, and Mike Rutherford in the 1976 line-up.

Some of Genesis most celebrated songs include "The Cinema Show," "Tonight, Tonight, Tonight," "I can't dance," and "Land of Confusion." The band still stands strong as one of the best selling artists and most successful groups of all time. They have performed for sold-out arenas and stadiums across the world for several years.

The trio's first album, "And Then There Were Three" (1978), was a huge success that yielded "Follow You Follow Me," the band's first US top 30 and UK top 10 single. It was followed by "Duke" in 1980, "Genesis" in 1983, "Abacab" in 1981, "Invisible Touch" in 1986, "We Can't Dance" in 1991, and finally "Calling All Stations" in 1997. However, the last album was commercially unsuccessful, and it led to a hiatus of the group.

Genesis reunited in 2007 after about a decade and went on Turn It On Again Tour, which became one of the highest-grossing tours. They played on several sold-out concerts across the United States and Canada. In European countries like Germany and Netherlands, they sold nearly 400,000 tickets in just 40 minutes! The Turn It On Again Tour concluded in Rome at the Circus Maximus, where Genesis played for over 500,000 fans.

Seeing how successful Genesis has been, it isn't hard to understand how they are so popular and celebrated worldwide. Banks, Collins, and Rutherford announced the band's reformation in March 2020 and about The Last Domino? Tour. This announcement has made Genesis and rock fans all over the world extremely excited!

After 14 years, the band is ready to tour across UK, North America, and Ireland. Nic Collins will take on the drums, and Daryl Stuermer will be on the guitar/bass. And then you have Phil Collins on the lead vocals/percussion, Tony Banks on the keyboards, and Mike Rutherford on the guitars, bass, and backing vocals.
