Key Ingredients and Their Benefits

Maqui Berry

Rhodiola

Haematococcus

- Maqui Berry: Maqui Berry is a nutrient-rich fruit that supports healthy mitochondria function and

metabolism. It contains anthocyanins which help mitochondria activity.

- Rhodiola: Rhodiola contains rosavin and salidroside, which lower stress levels. It increases the synthesis of mitochondrial ATP, especially before and after exercise.
- Haematococcus: Haematococcus supports healthy joints and encourages energy production. It contains lots of astaxanthin, whose antioxidant properties help mitochondrial function and increase ATP production.

Amla

Theobroma Cacao

Schisandra

- Amla: This powerful source of vitamin C and natural antioxidants supports mitochondrial function and biogenesis.
- Theobroma Cacao: Theobroma Cacao has anti-obesity potential and can help to manage chronic disorders associated with obesity.
- Schisandra: Schisandra is known to boost energy and aid calorie burning. It also helps to maintain the normal function of the mitochondria.

Does Mitolyn Really Work for Weight Loss?

Mitolyn works by supporting the body's natural processes to burn fat and turn it into energy. It can help the body target stored fat and focus on stubborn areas such as the belly and thighs.

It also helps with digestion and appetite control which makes it easier to manage portions, avoid overeating, and reduce calorie intake.
