Poetics Problem Being Solved!

Chiwan Choi · Wednesday, November 6th, 2013

The Poetics Problem series, Phase 2 of our PUBLISH! project, is off to a great start. Our first problem set created by Judeth Oden Choi has garnered a terrific variety of responses from as far as Nigeria. The second problem set is currently up (due date is this Friday, 11/8) and new solutions are coming in.

We are publishing everything that gets submitted to us. *Everything*.
So do check it out at the PUBLISH! website.
PUBLISH! is a year long project that we kicked off in June of this year during a steamy weekend in New York. It's what we are calling our Year of Underground Publishing.
Anyway, it's awesome. Judeth has conceived and developed a spectacular long term project that explores the changing roles of writer, publisher, and reader.
