Reveal Your Smoothest Skin Yet with The Polisher

Our Friends · Tuesday, September 30th, 2025

When it comes to body care, not all scrubs are created equal. Some are too harsh, others too weak—and few manage to strike that perfect balance of power and gentleness. That's where **Just The Strip's Polisher Bikini & Body Scrub** comes in. Designed for both men and women, this all-over body scrub blends physical and chemical exfoliants for results you can see *and* feel.

Why *The Polisher* is Different

Our formula is a true multi-tasker:

- **Exfoliating Power:** Glycolic acid and lactic acid gently dissolve dead skin cells, while pure salt and finely ground pecan shell powder polish away build-up and debris.
- **Hydration & Glow:** By clearing away clogged pores and dry skin, The Polisher helps your oils and moisturizers absorb better—leaving skin soft, supple, and radiant.
- **Ingrown Hair Prevention:** Perfect for use between waxing appointments, this scrub reduces follicle blockages that cause ingrown hairs and irritation.
- **Safe & Gentle:** Unlike overly abrasive scrubs, The Polisher is formulated to be effective yet irritation-free—even on sensitive areas like the bikini line.

Whether it's elbows, knees, or delicate bikini areas, The **Polisher smooths**, brightens, and hydrates for an all-over glow.

How to Use *The Polisher*

- Squeeze a **nickel-sized amount** onto your hand.
- Massage into damp skin using gentle, circular motions.
- For best results, focus on dry or bump-prone spots (elbows, bikini line, knees).
- Pair with **Just The Strip's Exfoliating Gloves** to extend the life of your scrub and maximize results.

A little goes a long way, so one tube can last you through weeks of smooth, glowing skin care.

Real Questions, Real Answers

What scrub should I use for the bikini area?

Use one that's effective yet gentle. *The Polisher* is specifically formulated with glycolic and lactic acids plus natural exfoliants to clear away buildup without irritation—making it ideal for sensitive

areas.

What's the difference between a scrub and a polisher?

A traditional scrub uses only physical exfoliants. *The Polisher* combines *both* physical (salt, pecan shell) and chemical (glycolic, lactic acid) exfoliation for a deeper clean and brighter skin.

Can exfoliating lighten the bikini area?

Yes! Regular use of *The Polisher* helps fade dark spots and uneven tone by removing buildup and stimulating skin renewal, leaving you with a smoother, brighter look.

Ready for Skin That Glows?

If you're tired of dull, rough, or bump-prone skin, it's time to treat yourself to **The Polisher**. Whether you're prepping for a big event, maintaining your waxing results, or simply craving soft, radiant skin, this is your new must-have.
