## Simple ways to add sparkle to your Holiday

Our Friends · Monday, November 25th, 2024

As the multitude of Christmas night fever draws closer and New Year is also just around the corner, this is the perfect time to do some soul-searching in order to incorporate some sparkle into your holiday looks.

From sequins to glitter, everything needs to be on the table when it comes to the holiday season, so making the right fashion statement can become a daunting task.

From novices to experts, here are a few styling secrets and the different ways of incorporating shine and which pieces to choose to **rock your Christmas party look** for experiencing the holiday spirit in abundance.

### Reach for the glitter

Your Christmas tree sparkles and so should you. A beautiful way to countdown to the holiday season is to add a sprinkle of sparkle to your hair with some glittery hair accessories that can make a massive difference to your confidence.

A glitter spray provides a pretty shimmer in a subtle way that catches the light and makes you party ready in no time at all. If you don't like glitter, swap it for a hair spray instead that offers versatility and lasting hold without damaging your hair. This is essential for the **holiday events** that require physical movements.

### Try the rhinestone edit

As the festive season draws closer, you must surely be searching your wardrobe for signs of any holiday look fashion. While satin and velvet still rule, if you have design on something exciting for the coming days, you need to find ways to make a bigger splash.

A sure-fire way to dazzle and dance under the disco lights and twinkle into 2025, rhinestones could be the ultimate addition to add sparkle to the holiday look. This could be a pair of dangling ear, a full mesh dress or just a stylish handbag, this is the time to pick these items for the upcoming festivities.

### Keep it seasonal

While spring and summer are ideal for a lightweight appearance, winter time is a great season to

add some color to show off a bolder look. This is also the holiday season, so wear a larger variety of metals than in the fall.

Adding a scarf, whether as a headband or to keep you cozy when the temperature dips, can provide the right balance to your jewellery pieces and make you especially fabulous with the drop earrings and a pretty bracelet.

## Invest in a mini-makeover

If you want to revitalize your spirits this upcoming **holiday season**, why not invest in a mini-makeover? Look for a DIY on Pinterest and let your creative juices flow to add sparkle to your day by combining glitter with some vibrant colors to give the special festive look.

Alternatively, go all out and treat yourself to a scheduling session with a salon expert to experience sustainable beauty in actual life, from specialised color and cuts to custom Herbal Hair Infusion treatments to provide instant results to any unique haircare challenges you may be facing.
