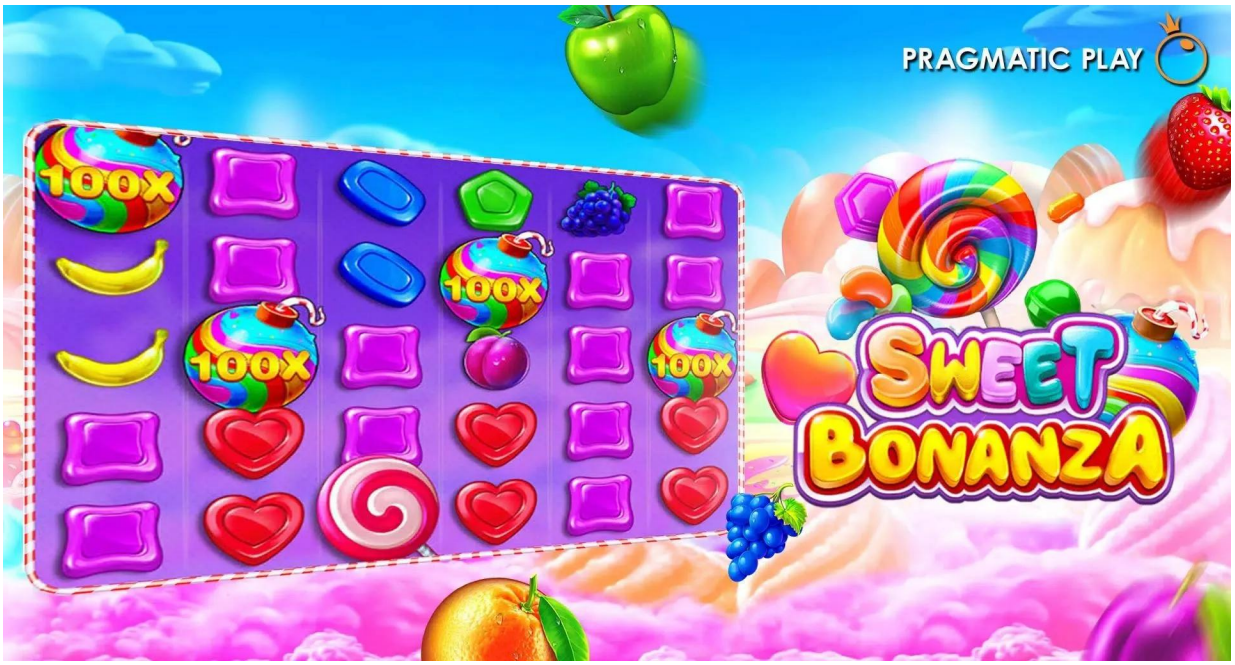
This mode attracts those looking for a more thrilling experience and aiming for substantial prizes. However, it's important to remember that the paid version requires budget management and a responsible approach to gambling.



Features of the Game

Sweet Bonanza boasts several distinctive features that make it popular among gambling enthusiasts. This slot, developed by Pragmatic Play, captures attention with its unique payout mechanics and bonus features. Among the features, you can find:

1. High Return to Player (RTP) rate of 96.51%, providing a higher likelihood of returning part of the bets as winnings.
2. Volatility classified as medium to high, implying the possibility of both frequent small wins and rare but significant payouts.
3. Betting range varies from a minimum of $0.20 to a maximum of $100, making the game accessible to both budget-conscious beginners and experienced players willing to place larger bets.

- Red Heart: The most valuable symbol, offering maximum payouts of up to 50x.
- Purple Candy: The next most significant symbol, also providing high payouts of up to 25x.
- Green Candy: Offers a medium level of prizes, up to 15x.
- Blue Candy: Provides slightly lower payouts compared to the green candy, reaching 12x.
- Apple: Represents an image with a medium coefficient of up to 10x.
- Plum: Comes with a multiplier of up to 8x.
- Watermelon: A symbol with relatively low value, offering up to 5x.
- Grapes: Also falls under the category of symbols with lower payouts, up to 4x.
- Banana: Has the lowest value among all fruit symbols, providing up to 2x the bet.

In addition to the main symbols, the game includes a Scatter symbol in the form of candy, which activates the free spins round and can bring additional winnings of up to 100x the bet size.

Bonus Buy Feature and Ante Bet in Sweet Bonanza

In the Sweet Bonanza slot, two key features stand out for their uniqueness and impact on the gameplay: the bonus buy option and the Ante bet. The bonus buy feature allows players to instantly activate the free spins round for a fee of 100 times the bet. This option is particularly attractive to those who don't want to wait for the random appearance of the required number of Scatters.

On the other hand, the Ante bet is an additional feature that increases the cost of each spin by 25 times but simultaneously enhances the probability of Scatters landing on the reels. This means that players have a higher chance of triggering free spins naturally.
